

Proteomic Workflow

Sample Preparation

Covaris®

Focused-ultrasonicators

baygene

Bullet Blender Storm Pro

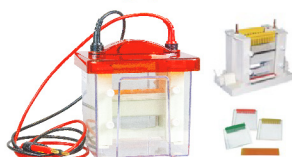

GENESPEED

Centrifuges

SDS-PAGE and Transfer

baygene

BG - Ver series Electrophoresis System

Blocking

Chemiluminescence-based

IR Fluorescence-based

Antibody Incubation

Antibodies

HRP- & IR-Secondary IgGs & IgG Binding Proteins

IRDye® Secondary Antibodies

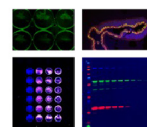

Detection and Analysis

baygene

Multifunctional fluorescence & chemiluminescence imaging analysis system

Odyssey Imagers

SYNGENE

Multiplex fluorescence and chemiluminescence WB imaging system
